To correct typographical errors, Eqs. (6) and (7) should appear as below:

$$\sigma(E) = \sigma_0 [E - E_{\text{th}}]^N / E, \quad (6)$$

$$\sigma(E) = \sigma_0 \sum_i g_i P_D(E, E_i, \tau) [E + E_i - E_{\text{th}}]^N / E. \quad (7)$$

The value of θ_S and θ_M for $\text{CH}_3\text{OH}\cdot\text{SO}_2$ in Table V on page 6445 should be interchanged. Hence, $\theta_S = 86.9(57)^\circ$ and $\theta_M = 68.8(10)^\circ$.
