

**Erratum: Experimental Characterization of Superradiance in a Single-Pass
High-Gain Laser-Seeded Free-Electron Laser Amplifier
[Phys. Rev. Lett. 98, 034802 (2007)]**

T. Watanabe, X. J. Wang, J. B. Murphy, J. Rose, Y. Shen, T. Tsang, L. Giannessi, P. Musumeci, and S. Reiche
(Received 26 March 2007; published 4 May 2007)

DOI: [10.1103/PhysRevLett.98.189903](https://doi.org/10.1103/PhysRevLett.98.189903)

PACS numbers: 41.60.Cr, 42.25.Bs, 42.25.Kb, 99.10.Cd

In the second paragraph, the phrase “in a cooperation length, $L_c = \lambda_r/4\pi\rho$ [14], where λ_r is the radiation wavelength and ρ is the Pierce parameter [15]” should be removed from the second sentence, so that it should read, “The term superradiance, originally coined by Dicke [13], was used to describe this pulse shortening regime in which the radiated FEL power is proportional to the square of the number of electrons.”

The erratum does not affect any experimental or numerical results, nor alter the conclusions presented in the Letter.

We would like to acknowledge R. Bonifacio, F. Casagrande, D. A. Jaroszynski, B. W. J. McNeil, N. Piovella, and G. R. M. Robb for pointing out the erratum.
